

Eames Plastic Barstool with seat upholstery

Designer: **Charles and Ray Eames**

Manufacturer: **Vitra**

£600

DESCRIPTION

Eames Plastic Barstool with seat upholstery by **Charles & Ray Eames** for **Vitra**.

Plastic Armchairs were first presented as part of a New York Museum of Modern Art competition, "Low Cost Furniture Design". Their organically shaped plastic seat shells were later combined with various different bases and manufactured in their millions.

The Eames Fiberglass Stool boasts a versatile design with a four-legged base available in two different heights to suit various settings. Each base is thoughtfully designed with a footrest for added comfort and is finished with either a sleek black powder coating or a polished chrome finish.

The Eames Plastic Barstool is also available in a **fibreglass shell version**. Plastic version also available without upholstery **here**.

Herman Miller has the sole license for the Charles and Ray Eames collection in the U.S. and the Far East. Therefore the export of these products from the UK to the U.S. is not possible.

DIMENSIONS

Available in two sizes:

Medium: 51w x 54d x 67/108cmh - Ideal for use at counters and tables 90 to 100 cm in height.

Large: 56w x 54d x 79.5/120cmh - Ideal for use at counters and tables 110 to 120 cm in height.

Please note this is a non-stackable stool.

MATERIALS

Polished die-cast aluminium base. The seat is made from recycled postconsumer waste.

Please note that due to the nature of the material, the recycled shells will exhibit very subtle specks of pigment. There may also be slight colour variations between seats.

All chairs come with basic dark glides for carpet as standard. For other options, including felt glides for hard floors, please enquire.

Available with upholstered seat (screwed to the seat shell). Please view upholstery and finishes sample in the Product Downloads area.
