

## Eames RE PSCC Side Chair with Upholstery

Designer: **Charles and Ray Eames**

Manufacturer: **Vitra**

£790

### DESCRIPTION

**Eames RE PSCC Side Chair with Upholstered Seat by Charles & Ray Eames for Vitra.**

Since the 1950s the organically shaped seat shell of the Plastic Side Chair has been combined with various bases and produced in the millions.

The Eames Plastic Chair has undergone numerous refinements and adjustments throughout its conception in the 1950s. To enhance its sustainability the chair shells now utilise recycled materials sourced from German household waste, notably collected through the 'Der Gelbe Sack' (Yellow Bag) system and predominantly from used packaging. This shift from traditional plastic to recycled material not only contributes to a reduction in climate-damaging emissions but also conserves energy.

PSCC (Pivot Side Chair Cast Base) transforms the Side Chair into a swivelling office chair.

Herman Miller has the sole license for the Charles and Ray Eames collection in the U.S. and the Far East. Therefore the export of these products from the UK to the U.S. is not possible.

Also available without an upholstered seat **here**.

## DIMENSIONS

46.5w x 55d x 36-48.5/76-88.5cmh

## MATERIALS

Polished die-cast aluminium base with double castors.

The seat is made from recycled postconsumer waste.

Please note that due to the nature of the material, the recycled shells will exhibit very subtle specks of pigment. There may also be slight colour variations between seats.

Available with upholstered seat or fully upholstered front in **Hopsak fabric** (pdf of colours available to download in Product downloads).

The fully upholstered front comes with a choice of white or black piping.

View the pdf in the download section to explore the range of colours available.
