

HAL RE bar stool

Designer: **Jasper Morrison**

Manufacturer: **Vitra**

£680

DESCRIPTION

HAL RE stool by **Jasper Morrison** for **Vitra**.

Jasper Morrison lives and works in London and Tokyo. His pieces are an expression of the “Super Normal” design philosophy. Working for Vitra since 1989, he reinterprets, develops and refines existing solutions to give them a new lease of life.

'Special is generally less useful than normal': this statement sums up Jasper Morrison's guiding principle for creating designs that show deference to the parameters of daily life. With the HAL range, he has reinterpreted the multifunctional shell chair and created a versatile family of chairs and stools with a clean contemporary look. The shape of the seat shell provides great freedom of movement in a variety of sitting positions.

DIMENSIONS

47w x 49d x 102/111.5cmh

MATERIALS

Dyed-through recycled polypropylene seat with swivel mechanism and optional seat cushion (screwed to the seat shell), available in a range of colours - see colour swatch image above. Base powder-coated in Basic Dark.

May also be ordered with a seat upholstered in Hopsak fabric.

View the downloadable pdf to explore the upholstery options available.
