

Compas Direction Desk

Designer: **Jean Prouve**

Manufacturer: **Vitra**

~~Was £2,635~~ Now £2,239

DESCRIPTION

Compas Direction Desk by **Jean Prouvé** for **Vitra**.

Jean Prouvé developed the Compas Table in various models around 1950, applying the construction principles that he is known for. All share elegantly splayed, narrow legs in metal, a formal reminder of a compas - in French 'le compas'.

The oiled solid wood table tops give Compas Direction an individual touch. With its compact dimensions, the table is ideal for the contemporary, largely paperless, home office, where it cuts a fine figure, particularly in combination with the Fauteuil Direction chair.

DIMENSIONS

125w x 60d x 73cmh

MATERIALS

Tabletop in solid wood with oiled finish; natural oak, dark oak or American walnut. The oak (*Quercus robur*) for the tabletop are sourced from Western Europe and/or Poland. The American walnut (*Juglans nigra*) sourced from the USA.

The base is made with bent sheet steel with a powder-coated smooth finish. The frame is available in 8 different colours. See swatches for an indication of shades.
