

Standard Chair SP, 1934/1950

Designer: **Jean Prouvé**

Manufacturer: **Vitra**

£575

DESCRIPTION

Standard Chair SP by **Jean Prouvé** for **Vitra**.

Chairs take the most strain on their back legs, where they bear the weight of their user's upper body. Prouvé took this into account very succinctly in Standard Chair. Tubular steel piping is enough for the front legs that take relatively little strain, whereas the back legs are made of voluminous hollow sections and pass the strain on to the floor.

Standard SP (Siege en Plastique) brings the iconic chair up-to-date without changing anything about its form; a seat and backrest of robust plastic in a carefully chosen colour palette gives Standard SP a contemporary look. The plastic parts can be combined in various colours and easily switched out or replaced. To match the plastic surface, the bases feature a resistant, matt powder-coating.

The Vitra original selection offers a 10-year warranty.

DIMENSIONS

43.5w x 50d x 48/80.5cmh

MATERIALS

Base in round and moulded sheet steel, powder-coated with a fine texture in Japanese Red, Prouvé Gris Vermeer, Prouvé Bleu Dynastie, Prouvé Blé Vert, Prouvé Bleu Marcoule, Prouvé Blanc Colombe, Prouvé Métal Brut or Deep Black. See swatches for details.

Seat and backrest in ASA plastic (fine-textured), available in deep black, warm grey and basalt. See the pdf in the download section for details to view the available options.

Select from standard glides for carpet or felt glides for hard floor.
