

## Tabouret Haut, 1942

Designer: **Jean Prouvé**

Manufacturer: **Vitra**

£849

## DESCRIPTION

**Tabouret Haut stool** by **Jean Prouvé** for **Vitra**.

For the design of Tabouret Haut, Jean Prouvé drew on a traditional type of bar stool that is still in common use today: a round seat disc resting on top of four long, canted legs. A ring is mounted to the inside of the legs at about a third of their height from the floor, increasing the rigidity of the construction and also serving as a comfortable footrest. Prouvé's interpretation of this classic type is distinguished by its simple, unpretentious appearance, lucid construction and harmonious proportions.

## DIMENSIONS

60w x 60d x 77.5cmh

## MATERIALS

Legs and seat in solid oak available natural or dark lacquered. Footrest in tubular chrome with anti-skid surface.
