DESCRIPTION

Colour Frame Mirror by **Julie Richoz** for **Vitra**.

Reimagining the timeless charm of a traditional wooden mirror, Julie Richoz introduces a contemporary twist with the Colour Frame Mirror. Crafted in three versatile sizes, the striking range is inspired by building blocks and their possible combinations.

Each mirror features four sides in different hues, ranging from vibrant tones to more subdued shades, making it adaptable to any interior aesthetic. The playful character of the frames evokes memories of sturdy wooden toys, while their depth offers practicality, doubling as shelves for small objects.

Multiple mirrors can be arranged on the wall horizontally or vertically, akin to building blocks, and create personalized compositions with dynamic colour interactions.
