

Chap stool with tray, 2021

Designer: **Konstantin Grcic**

Manufacturer: **Vitra**

£90

DESCRIPTION

Chap stool with tray by **Konstantin Grcic** for **Vitra**.

Chap is both versatile in use and design. The generic design form resembles a stool or a side table. Combined with the tray, Chap can be used in home settings as a footstool, side table or seating option. Lightweight and stackable, Chap is great for use in workshops, meetings and office gatherings. It can be stacked away when not in use.

The optional high-lipped Chap tray can be supported on the stable leg construction. Store your phone, cables, stationery items easily inside the tray. Chap and Chap Tray are manufactured from recycled plastics and are 100% recyclable themselves. Both products are available in a selection of colours.

DIMENSIONS

Chap stool: 43w x 43d x 45.5cmh

Chap tray: 41.5w x 20d x 6.5cmh

MATERIALS

Made from recycled polypropylene, 100% recyclable.
