

## Alcove 3 seat sofa, 2006

Designer: **Ronan and Erwan Bouroullec**

Manufacturer: **Vitra**

£7,850

## DESCRIPTION

**Alcove 3 seat sofa** by **Ronan & Erwan Bouroullec** for **Vitra**.

A sofa can go beyond being merely a piece of furniture and become a room of its own within a room – this was the idea that prompted Ronan and Erwan Bouroullec to design Alcove Sofa. With its unusually soft seat and backrest upholstery, as well as the high, flexible side and back panels, Alcove Sofa creates the frame for such a comfy, safe and secure world, a place for relaxed withdrawal from the hustle and bustle of life.

Two different upholstery designs are offered: soft lounge upholstery for relaxing, and a firmer work upholstery for work-oriented seating with varying seat heights (48.5cm for lounge and 40cm for work).

Pricing example is for a **three-seat sofa** as shown on the main image. Also available as a two-seat sofa, please enquire for details.

For full specification, other options in the range and fabrics please see downloadable PDFs. Available fabric swatches can be viewed in person at our showroom and shop as well.

## DIMENSIONS

239w x 86d x 94cmh

## MATERIALS

Structural frame in tubular steel with a chrome-plated or powder-coated (smooth) finish.

Powder-coated finish is available in Dark grey, Deep black, Japanese red and Pearl grey colours.

The metal frame comes with upholstery webbing in lounge upholstery variants and with MDF baseboard in work upholstery variants.

The back and side panels are constructed with integrated MDF boards for structural support and panel sections are connected with zip fasteners.

The upholstery available in four types of fabrics and filled with polyurethane foam and polyester fibre.
