

Waltz coat rack

Designer: **GamFratesi**

Manufacturer: **Wiener GTV Design**

£636.67

DESCRIPTION

Waltz coat rack by **GamFratesi** for **Wiener GTV Design**.

Paying tribute to the Viennese roots of the GTV brand, GamFratesi created the Waltz coat rack, inspired by the well-known ballroom dance. The large loops symbolize the repeated rotations synonymous with the dance.

Multiple modules can be combined to create a larger rack. Each module features three loops, two facing up, one facing down. When combined the design reproduces the movement of two dancers spinning to the sound of music, tracing the line of the waltz on the dancefloor.
