w201 Extra Small Pendants

Designer: **Claesson Koivisto and Rune**

Manufacturer: **Wastberg**

£264

DESCRIPTION

w201 Extra Small Pendants by **Claesson, Koivisto & Rune** for **Wastberg**.

w201 Extra small pendant is the scale down version of the larger w151 pendant from Wastberg. Although smaller than the usual pendant lights, the w201 Extra small pendant makes no sacrifices when it comes to light performance or integrity. Its smaller and more intimate form factor allows it to be used alone or in a group to create a beautiful composition of pendant lights.

The solid die-cast aluminium constructions function as the weight keeping for stability while also serving as a heat sink. Choose between the Satin matter black or white finish.

The light combines a COB LED with a reflector and prismatic diffuser to create a surprisingly ample scope of dimmable, flicker-free light. Available with either a Phase-cut or DALI Push dimmer.

DIMENSIONS

s1: 5.2dia x 13cmh
s2: 9.1dia x 9.4cmh
