

w222 Focal Wall

Designer: **David Chipperfield**

Manufacturer: **Wastberg**

£234

DESCRIPTION

w222 Focal Wall by **David Chipperfield** for **Wastberg**.

Architect and designer David Chipperfield has created a professional collection of lights that is both understated and enriching to its environment.

Warm and welcoming, the w222 Focal Wall light combines function and design to provide exceptional focal light while adding a touch of architectural charm to its surroundings. Its clever incorporation of angular and curved forms creates a sense of familiarity and intrigue. With effortless installation and enhanced focal illumination through its full-spectrum COB LED, the w222 Focal is a versatile choice for any space.

The unfinished pendant offers a more environmentally conscious option to the coloured lights. Its production is resource-efficient, containing no extra coatings or protective treatments, which makes it easily recyclable in the future. Additionally, the naturally textured surface of the aluminium patinas nicely over time.

Please note: The pale red, pale green and pale blue coloured lights are only available with a DALI push dimmer.

DIMENSIONS

13dia x 16d x 9.5cmh

Wall fixture: 6.5cmh
