Wingback Micro Chair by **Tom Dixon**.

Inspired by the classic 17th-century Wingback, the Wingback series is a contemporary collection of chairs, sofas, and ottomans. The Wingback series comes in a variety of colours and fabrics with chair legs in solid oak.

A re-scaled version of the **Wingback chair**, the Micro Wingback armchair is suited to modern living spaces. The Wingback features a striking design with pronounced curves which embrace the body. The wings, in addition, provide acoustic protection and a comfortable headrest.
