

Wireline, 2021

Designer: **Formafantasma**

Manufacturer: **Flos**

£2,920

DESCRIPTION

Wireline by **Formafantasma** for **Flos**.

The design of Wireline utilises the power cable, resembling a rubber belt, as a design feature giving this suspension light an industrial quality which is offset by the elegance of the ribbed glass extrusion.

The glass extrusion houses a diffuser and the LED light source. The power cable is available in two colours.

Wireline can be installed as a single piece or repeated to create unique visual compositions.

Lifestyle photography courtesy of Tommaso Sartori.

DIMENSIONS

130w x 170/400cmh
