

## ZA System, 2003

Designer: **Shin and Tomoko Azumi**

Manufacturer: **Lapalma**

~~Was £302~~ Now £256

## DESCRIPTION

**ZA System** by **Shin and Tomoko Azumi** for **Lapalma**.

A system of curved and linear modular elements that can be repeated infinitely with a "millipede" effect. Featuring a design of great formal simplicity, the metal support allows the various elements to combine without being visible.

The modular system comprises one and two-seater benches and a curved element. These nits can be easily linked to create flowing lines and circular elements for waiting areas, museums or schools.

**Please note: Linking support is required to connect multiple elements.**

## DIMENSIONS

Small: 48w x 44d 44cmh

Large: 94w x 44d x 44cmh

Curved: 82w x 48d x 44cmh

## MATERIALS

With powder coated frame in black or white, ZA is stackable and comes in several wood finishes.
