

Pro Kettle

Manufacturer: **Zwilling Enfinigy**

£139

DESCRIPTION

Pro Kettle by Zwilling Enfinigy.

Astutely engineered, the Zwilling Pro Kettle delivers on both aesthetics and functionality. The perfect brew can easily be achieved using one of the kettle's seven built-in temperature control programmes, located on the touch display of the kettle's docking base.

The handsomely sleek container is heat-insulated with a built-in stay-warm feature that keeps water at the desired temperature for up to 30 minutes. It also has a removable limescale filter, partially made with stainless steel, to ensure better flavour and easier maintenance.

The spout is complete with a snug-fit filter when the lid is closed to ensure spillage is kept to an absolute minimum, even when the kettle is accidentally knocked.

The Preset programmes are: 60°C, 70°C, 80°C, baby food 40°C, coffee brewing 93°C, 100°C and keep warm feature.

DIMENSIONS

15w x 22d x 24cmh.

Volume 1.5l
